

# Assembly Technician

King Electrical Manufacturing Company

## *About the company:*

We are a leading North American manufacturer of residential and commercial electric heating solutions located in south Seattle. From humble beginnings in 1958 to a professionally run company, we continue to expand our business by strategically sourcing components and material from around the world and selling our products throughout North America. As we continue to grow, we need team members who want to play key roles in our future.

## *About the role:*

The Assembly Technician is responsible for completing complex assembly orders. The ideal candidate will have a strong technical background and be able to read schematics and solve various electrical issues surrounding our heaters. The ideal candidate would be expected to learn all details of item assembly and operating specialized machines for each process step.

## **Role and Responsibilities**

- Position and assemble parts according to special instructions, routings, and schematics
- Effectively train new electrical assembly employees
- Ensure safety is regulated by reminding employees to wear PPE as required
- Provide recommendations on how to optimize the assembly of our electric heaters
- Identify inefficiencies and assist with line balancing activities
- Troubleshoot problems and solve electrical issues as they arise
- Active engagement in continuous improvement efforts
- Inspect all parts for cleanliness and flaws. If flaws exist, follow process to manage and correct
- Clean, assemble, disassemble, and replace parts as required
- Keep production supervisor advised of work status, workload, challenges, and progress as related to work assignments

## **Knowledge, Skills, and Abilities**

- Computer proficiency including MS Excel, Word, and Outlook
- Strong organizational skills with excellent attention to detail
- Strong communication and customer service skills
- Ability to work well in a team environment as well as independently
- Mathematical skills along with mechanical aptitude is a must
- Authorized to work in the U.S.
- Must be willing to submit to a pre-employment drug and background check
- Must be able to understand basic written/verbal instructions in English
- Have reliable transportation to ensure start of shift timeliness
- Ability to safely lift materials up to 50lbs

## **Preferred qualifications**

- Experience with sheet metal in the manufacturing industry
- Electrical heating experience is a plus

## **Education and experience**

- Highschool diploma, technical degree preferred
- 2-5 years of experience troubleshooting and fixing electrical issues
