

Senior Spot Welder

King Electrical Manufacturing Company

About the company:

We are a leading North American manufacturer of residential and commercial electric heating solutions located in south Seattle. From humble beginnings in 1958 to a professionally run company, we continue to expand our business by strategically sourcing components and material from around the world and selling our products throughout North America. As we continue to grow, we need team members who want to play key roles in our future.

About the role:

The Senior Spot welder is a more technical role within the fabrication department. As a subject matter expert, this individual will work on more complex welds, special projects, and assist the lead with other various responsibilities. **Hours:** 7:00 AM - 3:30 PM.

Role and Responsibilities

- Strong working knowledge and experience with resistive spot welding (RSW)
- Accurately read technical drawings to interpret into work instructions.
- Follow standard work instructions and give feedback on process improvements
- Active engagement in continuous improvement efforts
- Maintain high attention to detail to ensure quality welds and assemblies.
- Bring Quality Control issues to lead/management immediately once identified.
- Act as a mentor for other welders sharing experience and best practices
- Follow safety rules, operating and maintenance instructions, procedure manuals, etc.
- Set-up machine for production runs and identify any maintenance and safety issues to mitigate downtime occurrences
- Maintain equipment as instructed daily/weekly/monthly and keep record
- Keep a clean, organized, and safe work area at all times.

Knowledge, Skills, and Abilities:

- Strong attention to detail and good hand eye coordination is critical
- Authorized to work in the U.S.
- Must be willing to submit to a pre-employment drug and background check
- Must be able to understand basic written/verbal instructions in English
- Have reliable transportation to ensure start of shift timeliness
- Ability to safely lift materials up to 50lbs

Education/Experience

- GED / High school Diploma
- 5+ year experience with sheet metal in the manufacturing industry
- Weld certification preferred

General Disclosures:

This job description lists the major duties and requirements of the job and is not all-inclusive. Incumbent(s) may be expected to perform job-related duties other than those contained in this document and may be required to have specific job-related knowledge and skills.

We are an Equal Opportunity Employer. We will consider applicants for this position without regard to any category protected by applicable federal, state or local law, including but not limited to: race, color, religion, sex, national origin, age, physical or mental disability, genetic information, sexual orientation, veteran status or uniformed service member status.
