Property Management Thermostats Reinforce Positive Energy Habits While Limiting Landlord Expenses

Rental Property Owners Take Back Control of Energy Consumption

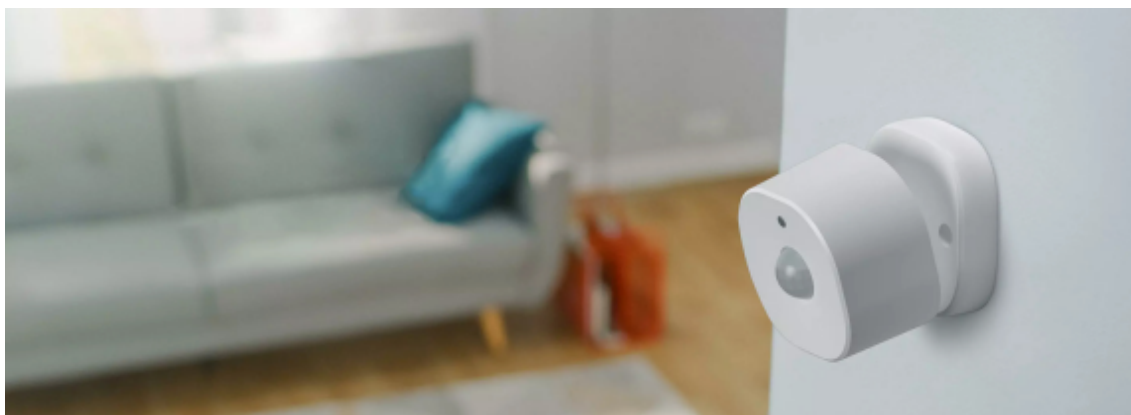

Property owners are often faced with high electric bills and no real actionable way to encourage tenants to be energy-conscious about their heating bill. Meet Autonomy Thermostat. Ideal for rental properties of any size. They even saved the University of Washington 4.9% on their total energy spend.

How to Wire an Occupancy Sensor to a WindowWatcher® Thermostat

With WindowWatcher®, there is a simple way to prevent tenants from leaving the heat on when they leave the building... connect an occupancy sensor and the thermostat automatically sets back when the room is unoccupied. Really, it's that simple.
