

Smart Heating Solutions

# BIG HEAT

## We're Kind Of A Big Deal In Large Spaces

For warehouses and distribution centers, the winter months can present an array of challenges. Warehouses can easily be separated into different heating zones based on temperature needs. Not all areas of the building require the same heating requirements, especially in areas that are automated or unoccupied for periods of time. By installing King Electric Warehouse Heaters in each zone, you can easily heat only the areas in use and conserve energy.

## How to Heat an Aircraft Hangar

### Or Any Space with Floor to Ceiling Bay Doors

When that big hangar door opens, the space fills up with unconditioned outside air.

A heating system that quickly brings the space back to the programmed comfort temperature is paramount. Fast recovery from cold air infiltration, that's the advantage of using a KFUH ECO2S High Velocity Unit Heater.
