Remote Temperature Adjustment

Convenient WIFI connectivity allows for total user comfort throughout the home. Control from anywhere with cell service or WIfI. With Hoot smart phone app, you can adjust the room temperature from the comfort of the couch.

Comfort Just A Touch Away

Each menu in the Hoot app is easy to navigate, allowing for quick & simple programming of all your custom schedules & settings. Making changes is no longer a hassle. Going on vacation? Simply pre-schedule your Vacation mode settings and go have fun! With Hoot, your home is in good hands.

Changes Made Easy

Manually override your programmed settings at any time with the app or directly through the thermostat. Your presets will still retain the same settings, and the override temperature will only remain until the end of the current period. However, by activating Hold Mode, you can lock the current temperature for any duration until manually changed. **Hoot** gives your home the comfort that you deserve.
