

Architectural Heater KAWH Series

Model Code:

KAWH	20	20
A	B	C
A: Series		
B: 20 - 208V 24 - 240/208V		
27 - 277V 48 - 480V		
C: Watts (1125 to 8000)		
D: Grill Color		
E: Control Options		
F: Mounting Box		

- Tubular Element with fins
- Factory-lubricated Motor
- Smart Limit Protection®
- Bottom air outlet
- Extruded aluminum grill
- Standard color: bright white
- 10" minimum clearance
- 160 CFM fan
- 208, 240/208, 277, 347, 480 or 600 Volts
- Built-in tamperproof thermostat
- Standard 140°F wiring
- 1-year warranty against defects

The Architectural Heater

The KAWH provides heavy duty elegance in an architectural heater and quick heat in areas affected by cold drafts. Its corrosion-resistant aluminum front is offered in several colors. The appearance of the overall finish will not change over time. The control is hidden to avoid tampering. Powered by a closed factory lubricated motor, the fan blows warm air downward to create air circulation. Excellent for use in apartment complexes, commercial buildings, entryways, stairwells or garages.

Ordering Information

*Add suffix -A for optional Almond color

Architectural Heater KAWH Series

Engineering Specifications

Contractor shall supply and install KAWH Series in-wall mounted forced-air electric heaters by King Electrical Mfg. Company, of the wattage and voltage as indicated on the plans.

Motor: Closed, factory-lubricated motor.

Fan: 160 cfm fan (1.5 to 4.8 kW); 2 160 cfm fan (6 to 8 kW)

Thermostat: Built-in tamperproof thermostat included (32°F - 120°F)

Elements: Durable tubular heating element with fins.

Thermal Overload: High-limit temperature control with automatic reset.

Fan / Heat / Off Switch: Fan delay purges heater of residual heat (Any remote thermostat or relay must be connected to the heater control terminal block.)

Wall-box: Minimum clearance from the floor and adjacent walls: 10".

Grill: Extruded aluminum front grille, 1/8" thick.

Options: Wired for remote thermostat, and surface wall-box.

Approvals: cCSAus
