Compact Unit Heater
With High-Low Switch
& Indicator Lights

950W to 5.7kW
120V, 208V, 240V
277V & 480V Models,
1 or 3 Phase

Pic-A-Watt
Steel Fin Element

KBP-LHP Series

Multiple Wattage Compact Unit Heater With High-Low Switch & Indicator Lights

The KBP LHP Series is a versatile multi wattage unit heater designed for improved control and easy installation. It includes a factory installed high low heat switch and pilot lights for power and safety status, plus a built-in thermostat that can be converted to a remote line voltage thermostat. Its rugged flow through design delivers fast even heat for residential and commercial spaces, while dual Pic A Watt steel fin elements provide flexible wattage options. An integral fan delay helps increase efficiency by continuing to disperse residual heat during cool down.

Customer Needs

- Durable Heat For Tough Spaces** – Built to perform reliably in garages, workshops, and greenhouses.
- Customizable Output** – Adjustable wattage lets you match heat to the space and save energy.

Features

Benefits

Indicator Lights	Quickly confirm power and safety status.
High-Low Heat Switch	Quickly adjust heat output for comfort or energy-savings.
Thermostat Flexibility	Choose Built-In or Remote Thermostat Control (Low Voltage or Line Voltage) Built-In Thermostat Or Field-Convert To Remote Line Voltage Stat
385CFM Flow-Through Design	Efficiently Moves Air At 385CFM Heating Large Spaces
Pic-A-Watt Steel Fin Elements	Selectable Wattage Design Allows Heater To Be Tailored To The Space
Optional Field-Installed Disconnect Switch	Easily Upgrade For Code Compliance And Safe Maintenance Shutdown

Applications

- Garages • Workshops • Greenhouses • Utility Rooms
- Barns or Agricultural Buildings • Equipment Storage Areas • Light Commercial

KBP-LHP Series

Specifications:

- Dual Pic-A-Watt® Elements
- Multiple Wattage Options, to Tailor to a Room's Specific Heating Requirements
- Adjustable Louvers To Direct Airflow
- Includes High Accuracy Built-in Thermostat with Easy-Connect Terminal Block to Field Convert to a Remote Line Voltage Thermostat
- Hinged Electrical Enclosure For Easy Access
- Includes High/Low Heat Switch
- Includes Pilot Lights For Power Indication & Safety Limit Status
- Solid Riveted Construction For Consistent, Long-Term Durability
- 385 CFM Output
- Aluminum Fan Blade
- Patented Smart Limit Protection®
- Permanently Lubricated Unit Bearing Motor
- Fan Delay To Dissipate Heat
- Universal Wall/Ceiling Bracket Included
- Proudly Made in the USA with U.S. & Global Materials

WARRANTY

5-Year Limited Warranty
