KBP PlatinumX Series

Multiple Wattage Compact Unit Heater

King's KBP PlatinumX series unit heaters are the most full-featured compact unit heaters on the market, with in-built electronic thermostat for accuracy and remote control for simple operation. Comes standard with a provision for adding an optional 24V thermostat, allowing for remote temperature control or integration with a building management system (BMS). Combined with summer fan-only and thermostat timer modes, the KBP PlatinumX adapts to your needs year-round.

Customer Needs

1. Reduce Energy Waste with Simple Control –

The built-in electronic thermostat, plus remote and timer, makes energy-saving comfort easy.

2. Smart Thermostat & BMS Integration -

The 24V thermostat provision is compatible with Nest, other smart thermostats, and building management system (BMS) for remote control and energy savings.

Features

Benefits

Built-in PlatinumX Electronic Thermostat	Provides precise temperature control and energy-saving operation.
24V Thermostat Provision	Enables integration with Nest, other smart thermostats, or a BMS for remote control.
Remote Control with Timer & Fan-Only Mode	Adds convenience, allowing users to adjust settings from anywhere in the room.
Integrated Fan-Only & Timer Modes	Offers year-round versatility and convenient scheduling.
Smart Limit Protection® Safety System	Ensures safe operation by requiring a manual reset after abnormal conditions.

Applications

- Garages • Workshops • Green Houses • Utility Rooms
- Barns or Agricultural Buildings • Equipment Storage Areas • Light Commercial
