KBP PlatinumX BMS Series

Smart Compact Unit Heater with Remote Control

King's KB PlatinumX BMS Series unit heaters are designed for precision comfort control and year-round versatility. Each heater features an integrated electronic thermostat for accurate temperature management and a handheld remote for convenient operation. The unit also includes a built-in provision for an optional 24V thermostat, enabling remote temperature control or seamless integration with a building management system (BMS). With additional modes such as summer fan-only and thermostat timer operation, the KB PlatinumX adapts easily to changing seasonal needs.

Upgrade performance with the optional ECO PRO Controller —

a remote thermostat featuring a 7-day programmable schedule, allowing different heating profiles for each day of the week to balance comfort and energy efficiency. The controller includes an integrated temperature sensor that identifies cold spots and automatically adjusts output for consistent room comfort. It also supports wired or wireless RF window, door, and occupancy sensors to minimize energy waste. Multiple heaters can be paired to a single controller, enabling smart zoning across larger spaces.

Customer Needs

- 1. Reduce Energy Waste with Simple, Accurate Control** – The built-in electronic thermostat, handheld remote, and timer functions make it easy to maintain comfort while minimizing unnecessary energy use.
- 2. Smart Thermostat & BMS Integration for Remote Management** – The 24V thermostat provision supports Nest, other smart thermostats, and building management systems (BMS), enabling centralized control and additional opportunities for energy savings.
- 3. Optional ECO PRO Controller for Advanced Efficiency & Automation** – Programmable scheduling, occupancy and window/door sensor integration, and multi-heater pairing help reduce run time, lower operating costs, and maintain consistent comfort across zones.

Features

Benefits

Built-in PlatinumX Electronic Thermostat	Provides precise temperature control and energy-saving operation.
24V Thermostat Provision	Enables integration with Nest, other smart thermostats, or a BMS for remote control.
Remote Control with Timer & Fan-Only Mode	Adds convenience, allowing users to adjust settings from anywhere in the room.
Integrated Fan-Only & Timer Modes	Offers year-round versatility and convenient scheduling.
Optional ECO PRO Controller & Wireless Sensors	Improves comfort and reduce energy waste thru programmable scheduling and occupancy-based control.

Applications

- Garages • Workshops • Green Houses • Utility Rooms
- Barns or Agricultural Buildings • Equipment Storage Areas • Light Commercial

KBP PlatinumX BMS Series

Specifications:

- Energy-Saving PlatinumX Electronic Temperature Controller
- Thermostat Temperature Range: 40° to 95°
- Built-In Provision For Using Any 24V Remote Thermostat (Optional)
- Compatible With NEST / Any 24V Thermostat, Including WIFI Stats
- Compatible With BMS Systems
- Remote Control Included with Wall Holder
- Timer & Summer Fan Only Modes
- Auto Memory Feature: Returns Unit To Last Settings After Power Outage
- Built-In Fan Delay To Dissipate Heat
- Dual Pic-A-Watt Elements
- Patented Smart Limit Protection®
- Permanent Lubricated Unit Bearing Motor
- Solid Riveted Construction For Consistent, Long-Term Durability
- Universal Wall/Ceiling Bracket Included
- Proudly Made in the USA with U.S. & Global Materials

WARRANTY

5-Year Limited Warranty
