Smart  Wave

RK Series

Carbon Fiber Radiant
Heater w/Remote

SmartWave carbon fiber radiant heaters transfer heat to people and objects without heating the surrounding air. Featuring CarbonIQ, carbon fiber elements, that produce high-output medium-wave infrared heat with a soft visible orange glow. SmartWave heaters are a great choice for outdoor patios and applications where high heat is required but less visible light is desired. Featuring an integrated built-in controller which you can select between the 2 different heat levels or set a 24 hour timer to only heat the space while you are using it. It's that easy. Add the simple hand-held remote control and comfort is always in the palm of your hand.

Includes IR
Remote

1 Lamp / 2 Lamp
3 Lamp Models

1500W / 3000W / 4500W

120V, 208V or 240V
