Restaurants - Entertainment - Emergency Response

KEEP TENT SPACES AND TEMPORARY EVENTS COMFORTABLE WITH DISCREET PORTABLE HEATERS

TENT HEATERS

For over 60 years King Electric has manufactured electric heating solutions offering discreet immersive heat, quiet operation, safe, trouble-free design, that produce no harmful emissions making them ideal for tent and other event applications. From expanded outdoor restaurant dining tents, emergency testing tents to elegant weddings and company parties, you can count on King heaters to maintain a comfortable temperature while going virtually unnoticed by guests.

Made In The USA Quality since 1958. The industry standard for easy-to-setup, operate and maintain portable heat.

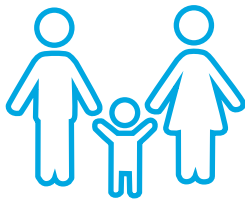

DISCREET

Duct and diffusing options distribute heated air inside tent with heater setup outside, blends in with many tent structures.

SAFE

100% Clean, Dry Heat With No Emissions.

SIMPLE

TEMPERATURE CONTROL

Tent heaters include a built-in thermostat to allow simple adjustments to achieve the desired temperature and maintain it automatically.

PORTABLE

Choose from small and compact models to larger models with handles for maximum portability.

VERSATILE SET-UP

- Choose from Indoor and Outdoor Use models
- Duct and diffusing options distribute heated air inside tent with heater setup outside
- Thermostat included so temperature can be set and maintained automatically.

100% CLEAN DRY HEAT WITH NO EMISSIONS

- Electric heat technology is the ideal solution for even the strictest of applications
- Tightly sealed temporary spaces like three season porches
- Clear span style structures that may not provide adequate exchange air
- Medical and specialty applications with strict air quality standards

KEEP TENTED AND TEMPORARY EVENT SPACES COMFORTABLE WITH PORTABLE HEATERS THAT YOUR GUESTS WON'T EVEN KNOW ARE THERE.

MODEL: KTENT

Small Tent Heater

In the winter months, colder climates can pose a challenge for those restaurants, and enclosed party tents. Often going unnoticed, KTENT small tent heaters are discreet and deliver heat directly where you need it. Cost-effective heating in a compact package. With a unique design that sits just outside of the tent, the exhaust outlet then slips under the edge of the tent to gently exhaust the heated air into the space.

PRODUCT FEATURES

- Tent Transition Collar Slips Directly Under Tent
- Discreet Design Won't Be Seen By Customers
- High Low Switch To Select Full or Half Wattage
- Open Coil Elements For Quick Heat
- Built-In Thermostat (40°-100°F)
- Twists The Air to Maximize Velocity
- Multiple Wattage Options, to Tailor to a Tent's Specific Heating Requirements
- Quiet Squirrel Cage Blower Design
- Patented Smart Limit Protection®
- Proudly Made in the USA
- 2-Year Limited Warranty

GIVING YOU PEACE OF MIND FOR THOSE SPECIAL OCCASSIONS

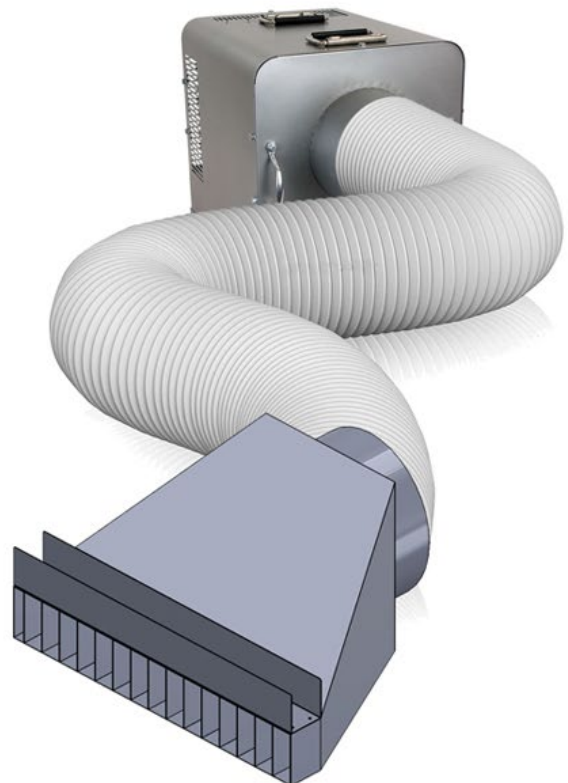

MODEL: PKB-DT

Large Ductable Tent Heater

For larger tent spaces, the PKB-DT ductable with the optional DT-TENT-TRANSITION is the best solution. These portable heaters can be ducted, to direct the heated air to required areas and are ideal for large restaurant outdoor dining tents, special event tents and emergency shelters. Electric is the best heat source for these applications, producing dry clean, heat with no odor or emissions, preferred over propane or kerosene space heaters. The high CFM and low temperature rise are also key features to make the PKB-DT perfect for temporary large capacity heating applications.

PRODUCT FEATURES

- Duct Transition Collar
- Paired with the optional DT-TENT-TRANSITION and easily duct into tented spaces
- High Mass Steel Fin Heat Exchanger
- Built-in Thermostat (40°-100°F)
- Top Spring-Loaded Retractable Carrying Handles
- 4 Heavy-Duty Rubber Feet
- Long Life Unit Bearing Motor
- Fan Only Switch
- Patented Smart Limit Protection®
- 6ft. SO Cord (no plug)
- Durable 20-Gauge Steel Enclosure
- Non-Mercury Tip Over Switch
- Proudly Made in USA
- 2-Year Limited Warranty

CONTROL COMFORT FOR EMERGENCY & LARGE EVENTS

MODEL: PCKF

Industrial Large Ducted Tent Heater Rated For Outdoor Use

The PCKF ductable outdoor rated unit heater with the optional DT-TENT-TRANSITION is constructed to hold up to the rigorous demands of the largest event spaces. These portable heaters can be ducted, to direct the heated air to required areas and are ideal for large restaurant outdoor dining tents, special event tents and emergency shelters. Electric is the best heat source for these applications, producing dry clean, heat with no odor or emissions, preferred over propane or kerosene space heaters. The high CFM and moderate temperature rise are also key features to make this unit heater the very best solution. Comes standard with a remote thermostat & 100' cord. This outdoor rated portable unit heater allows you to place the heater outside in the rain and feed heated air into the space. Includes an intake rain baffle and electrical compartment rain cover and is UL approved for Outdoor Use.
